

SPE Aberdeen Summit Series Seminar

Inwell flow surveillance and control: new frontiers

22nd October 2013
The Marcliffe Hotel, Aberdeen

PROGRAMME:

0800 hours Registration, refreshments

- Keynote Address: Downhole flow control and monitoring, a helicopter view
Mohamed Noui-Mehidi, Saudi Aramco
- In-well flow metering: where are we on the technology map?
Andy Hunt, Atout Process
- Optimal sensor placement for multi-phase flow rate estimation using pressure and temperature measurements
Kyojiro Kawaguchi, Yokogawa Electric Corporation
- Novel data interpretation and active monitoring methods for intelligent wells
Khafiz Muradov, Heriot-Watt University
- Wanted: "reliable and accurate" multiphase flow measurement in intelligent completions
Haldun Unalmis, Weatherford
- In-well flow profiling using an advanced distributed fibre optic sensing system
Daniel Finfer, Silixa
- Rigless production logging - chemical production logging technology
Christian Andresen, RESMAN

New Seminar...

FOR: Petroleum Engineers, Reservoir Engineers, Asset Managers and Completions Specialists

- Fibre optic developments enable intelligent real-time decision making
Frode Hveding, Ziebel AS
- Rethinking well data acquisition and control infrastructure
Peter S. Aronstam, WINS AS
- Active in-flow control technology
Feroze Haidary, Absolute Completion Technologies
- Step change improvements to established reservoir completion technology
Annabel Green, Tendeka
- Autonomous inflow control device installation successfully increases oil production
Brandon Least, Halliburton
- Autonomous gas/water shut-off in field with gas/water breakthrough
Vidar Mathiesen, InflowControl
- A step change in downhole intelligent systems
Rob Turner, Saudi Aramco
